NAVIGATION

The reporting system is an online data collection tool hosted through Qualtrics. Data input and submission will require internet access.

ACCESSING THE REPORTING SYSTEM

The reporting system is accessed through the Texas SVPP Evaluation website. Instructions for accessing the system are as follows:

1. Go to www.evalsvpptx.com.
2. Click on the REPORTING tab.
3. The SVPP program reporting system links for sexual assault programs are in the turquoise box on the left side of the screen. Scroll to and click on the quarterly reporting button that corresponds with the quarter you would like to report.
4. You will be asked to enter your password which has been assigned to you by the Texas A&M Evaluation team and is unique to your organization. If you are unsure of your organization's password, please go to www.evalsvpptx.com/contact and fill out the form to request your password be sent to you via email.

SAVING DATA

At the bottom of each page that requires data input, there is a “**SAVE & CONTINUE**” button. This button saves all the data on the current page. You *must* click this button to save your data, even if you have not filled in all of the requested information on the page. When you return to the reporting system at a later time, you will automatically be directed to the last page you were on.

RETURNING TO THE SYSTEM

The system is designed to allow you to return to the system if you are unable to input all of your quarterly data at one time. Once you have saved inputted data and exited the reporting system by closing your browser, you can return to the system through the Texas SVPP Evaluation website (www.evalsvpptx.com). You will enter your password and then automatically be directed to the page where you left off. If you certify and submit your quarterly data and return to the system, the previously submitted data is no longer visible to you as it has been received by the evaluation team. If you need to edit submitted information, submit a data corrections form (instructions provided on page 4).

SUBMITTING REPORT

As required by the OAG, you will be prompted with a certification page before you submit your data. After you have input all required data for the reporting period, you will be required to enter the name of the authorized individual who will be verifying your data.

You have completed reporting for Quarter 1! However, you must certify the data before your report is submitted. Continue using one of the following options:

Update/Add Additional Data:
Navigate to the correct page using the "BACK" button.

Certify Data:
Enter the name of the individual who has authority to certify your organization's data in the field below and click "PROCEED TO SUMMARY PAGE".

If you are authorized to verify your organization's data, you will be able to review and certify all of your data on the summary page. If you need a supervisor to certify your data, the summary page will provide you with instructions on sharing your inputted data with an authorized official.

E1. Please provide the name of the person certifying data:

Follow the instructions on this page to proceed to the summary page where the authorized official will be able to review and verify data for the reporting period.

Summary Page

This page contains a summary of your responses. If you need to correct any data before submitting your report, please use the "BACK" button to navigate to the appropriate page. Your report is not submitted until the "VERIFY" button at the bottom of this page is clicked.

Data Verification/Certification

Data verification by an Authorized Official or Grant Contact is required. By clicking "VERIFY" at the bottom of this page, you are attesting that the data and information contained in this report are true and accurate to the best of your knowledge and understanding. If you do not have the authority to verify this data, please follow the instructions below to share the report with your Authorized Official or Grant Contact:

- Electronically – Close your browser and have your Authorized Official/Grant Contact login to the reporting system using the organization's password. They will automatically be taken to this summary page where they can review and verify the data.
- PDF – Use your browser's Print to PDF mechanism to print this summary page. For many web browsers, this can be done by right clicking within the browser window and selecting "Print". **NOTE: DO NOT RELY ON THE DOWNLOAD PDF BUTTON BELOW.** It does not always display all of the data entered.

Authorized Official/Grant Contacts

Please review the data entered in the report. Once you verify that all the information is correct, select the "VERIFY" button at the bottom of the page to certify the report. If data needs to be corrected before verification, use the "BACK" button to navigate to the appropriate question(s) that need to be updated.

Saving this Summary Page for Your Records

You may save this Summary Page by using your web browser's Print to PDF mechanism. For many web browsers, this can be done by right clicking within the browser window and selecting "Print". **NOTE: DO NOT RELY ON THE DOWNLOAD PDF BUTTON BELOW.** It does not always display all of the data entered. However, please rest assured that all of the data that appears on this summary page has been captured by the system, even though it may not appear when the "Download PDF" button is used.

The summary page is your opportunity to review all your inputted data for the reporting period before it is officially submitted. Once you have reviewed your data and do not have any additions or edits, the authorized official of your organization must verify your data by clicking “**VERIFY**” at the very bottom of the summary page. By verifying the data, the authorized official attests that the data and information contained in the report are true and accurate to the best of their knowledge and understanding.

DATA CORRECTIONS

In the event that submitted data needs to be corrected, the grantee will be responsible for submitting a form through the Texas SVPP Evaluation website (www.evalsvpptx.com). Instructions for accessing the form are as follows:

1. Go to www.evalsvpptx.com.
2. Click on the REPORTING tab.
3. Scroll to the SUBMITTING DATA CORRECTIONS form.
4. Complete the required fields and click “Submit”.

The screenshot shows a web form titled "SUBMITTING DATA CORRECTIONS" with the instruction "Use the form below to submit corrections to previously submitted data." The form contains several required fields: "Implementing Organization Name", "Name of Individual Submitting Corrections", "Phone Number of Individual Submitting Corrections", and "Email Address of Individual Submitting Corrections". Below these fields are radio buttons for "Was this data correction prompted by your organization or at the request of Texas A&M or the Office of the Attorney General?", with options for "My organization", "Texas A&M", and "Office of the Attorney General". There is also a dropdown menu for "Select the quarter for which you are submitting corrections" and a large text area for "Submit updated data and any helpful contextual information in the box below". A "Submit" button is located at the bottom right of the form.

DUE DATE

Annual questions are part of your SAPCS-Federal Performance Report for Quarter 2. The Quarter 2 report must be submitted via the SVPP Reporting System within 30 days of the end of the quarter, which is August 30th.

TECHNICAL ASSISTANCE

REPORTING SYSTEM

For technical assistance regarding this reporting system, please contact Elfreda Samman at esamman@tamu.edu.

DEFINITIONS

This section contains definitions of terms for reporting SAPCS-Federal activities.

Actual Reach – the number of individuals, organizations, or communities that are affected by or received the prevention strategy.

Community – any defined population with shared characteristics and environments, including schools, neighborhoods, cities, organizations (e.g., workplaces), or institutions.

Community-level Strategies – strategies that target the characteristics of settings (e.g., school, workplaces, and neighborhoods) that increase risk for, or protect people from, violence

Outcomes to be measured – identified in the Texas Logic Model and seeks to determine if the program made a difference and was successful in bringing about the intended changes. All funded organizations will be required to conduct the evaluation included in their chosen program. Additionally, all funded organizations will be required to collect outcomes and use specific measurement tools provided by the OAG.

Outputs – product of program activities.

Population of Focus – 6th – 12th grade (or age equivalent if not in a school setting), college/university students, and adult influencers. The population of focus is the population chosen by an organization in which prevention programming is designed to create a change.

Practice - changing organizational practices in support of specific Focus Areas and Approaches.

Program – is a specific curriculum, training, or policy being implemented (e.g., Bringing in the Bystander, Second Step, etc.).

Protective Factors – events, conditions, situations, or exposure to influences that impede the initiation of sexual violence in at-risk populations and in the community. See Texas Programming Summary for list of Texas specific protective factors.

Risk Factors for Sexual Violence – events, conditions, situations, or exposure to influences that result in the initiation of sexual violence. See Texas Programming Summary for list of Texas-specific risk factors.

Social Norms – group-level beliefs and expectations of members' behavior.

Strategy – a specific program, policy, or practice. A strategy is an activity (e.g., environmental change, policy-related activity, social norms change activity, bystander intervention training, healthy relationship education) intended

to prevent violence and promote health in a group of people). This is a general definition provided by the CDC and should be considered within the guidance of the Texas SAPCS-Federal Programming Summary.

Texas SAPCS-Federal Programming Summary – contains information on focus areas, approaches, specific program requirements, risk and protective factors, programs available for use with SAPCS-Federal funds, definitions of specific terms, and general guidance relevant to the SAPCS-Federal grant. You can access an electronic copy of the document at <https://evalsvppts.com/resources>.

Educational Seminars – live, interactive programs delivered to program participants only, in-person or virtually (e.g. individuals that participate in programming such as Be Strong, Bringing in the Bystander, Close to Home, etc.).

Training Programs for Professionals – any live, interactive training (in person or virtual) provided to professionals as a result of programming.

Other Education – live, interactive instruction, outside of implementing your chosen program, aimed at internal or external audiences, conducted in person or in a virtual environment. Education to internal audiences refers to groups internal to your organization such as agency staff, volunteers, or board members. Education to external audiences refers to groups outside your organization such as coalition members, community stakeholders, and youth (other than program participants).

- Internal audiences refers to groups internal to your organization such as agency staff, volunteers, or board members.
- External audiences – Planning Group –planning group meetings are reported under Other Education – External - Planning Group.
- External Audiences - Other - groups other than program participants or planning group members.

Asynchronous programming – implementation of whole sessions of chosen program (e.g. Bringing in the Bystanders, Be Strong, etc.) using pre-recorded lectures (including podcasts) and digital curriculum materials where participants respond through email, discussion boards, social networking, and collaborative documents at a time of their own choosing.

Coalition Building – efforts involve building an alliance or partnership of groups working together to achieve a common purpose or to engage in joint activity.

Community Mobilization – efforts involve engaging every level of the community working together to follow a systematic process and take actions to design and implement preventive activities.

Policy Education – educating the public on the evidence associated with potential organizational and public policy solutions to prevent sexual violence (e.g. research on policy alternatives and their impact; educating the public with examples of best practices or success stories across states or localities; compiling and communicating the results of research on health issues and policy approaches that have successfully addressed them; upon formal, written request,

providing public officials with technical advice or assistance concerning evidence of program or policy effectiveness)

Important note: Examples of unallowable activities (e.g. lobbying) with RPE funds: grassroots lobbying (calls to action; sign-on letters urging support for a bill; media campaign ads recommending the public contact legislators); or direct lobbying (any kind of communication to legislators that refer to and reflect a view on a specific pending or proposed measure).

Social Norms Change – changing or modifying negative or harmful social norms, and promoting social norms that protect against violence.

Strategic Planning – time and resources spent on planning programming (e.g. staff meetings discussing implementation, de-briefs with staff, etc.)

Staff Development – conferences, webinars, and other training attended by grant-funded staff such as the Prevention Institute, the National Sexual Assault Conference, etc.

Evaluation - time and resources spent on evaluation efforts including administering surveys, recording survey results, and using evaluation results for program improvement.

ANNUAL QUESTION GUIDE

The question guide portion of this protocol details and clarifies what is being asked in each question in the Annual portion of the reporting system. Please refer to the Quarterly Reporting System Protocol for Monthly & Quarterly Questions for more detail on those sections. Each section header corresponds to each page of the reporting system. The title of each page of the reporting system is located at the top of that page. A description of the section content and the frequency at which each question is asked in the reporting system is listed below each section header. Each question is displayed in the left column, the question type (data field) in the middle column, and further explanation of each question in the right column.
